

About the Home Composter

This is the best backyard compost bin out there. It is simple to use, has a huge capacity for yard material and food waste, and made of 100% recyclable material. It is not sold in stores.

Special Features:

- **It is attractive**
- 100% recycled plastic
- Black to absorb heat quickly
- 128 gallon capacity (can hold six to eight 30-gallon bags of yard material)
- Easy to use, simple to assemble and move if you need
- Long-lasting
- A door that slides open at the bottom giving you easy access to finished compost without emptying entire bin
- A tight lid keeping pests out; yet is well vented to decompose organic material well
- Comes with a copy of the book "The Composting Cookbook"

Each composter comes consists of two sides with sliding doors, four clips, and a locking lid. Participants also receive an instruction sheet and Home Compost Cookbook with each purchase.
